OPENING REMARKS

ANGGER BAGUS WICAKSONO
PRESENTER

"There are still many people who think that having a perfect body is a privilege. People who think about that mindset are not aware that this statement can make people who don't have a perfect body feel insecure about their situation. And that mindset causes social pressure that we must have a perfect body in order to be accepted in the community or society."

NAFIATUR RIZQIYAH
PRESENTER

"Actually, it depends on our environment. Not everyone is under that pressure. But if in general, of course it is. It's like the stereotype society provides to us, about the ideal figure."
